## Y-Strainer – The Smart Solution for Clean Water

At Ashirvad, we understand that clean, debris-free water is essential for maintaining the health of your home and the longevity of your appliances. Our Y-Strainer is designed with this in mind, offering an effective solution to prevent clogs, ensure smooth water flow, and extend the life of your plumbing system.

## Why Choose Ashirvad Y-Strainer?

Water in households often contains suspended solids, sediment, dirt, and other impurities that can damage your plumbing and appliances over time. Traditional filters may not always effectively prevent these issues, leading to frequent maintenance, clogged pipes, and decreased water flow. This is where **\*Ashirvad Y-Strainer\*** comes in.

Our Y-Strainer is engineered to catch and filter out these harmful particles before they cause problems, ensuring the longevity of your plumbing system and the efficiency of your household appliances. It's a simple, cost-effective solution\* to keep your water clean and your home running smoothly.

Ashirvad is providing **CPVC/uPVC body Y-strainer** which enables ease of installation and cost saving on 2 brass adaptors.

## Key Features

- Corrosion Resistant:** Built with durable CPVC and uPVC options, the Y-Strainer ensures lasting protection against corrosion.
- Efficient Filtration:** The specially designed 316 stainless steel mesh (350 microns) effectively filters out dirt, debris, and sediment, ensuring optimal water flow.
- Easy Maintenance:** The strainer is simple to clean and maintain, with a removable mesh that allows for easy access.
- Cost Saving:** Reduces the frequency of maintenance and service calls, ultimately saving you money while increasing the lifespan of your appliances.

## Why It Matters for Plumbers

For experienced plumbers, the Ashirvad Y-Strainer eliminates frequent callbacks due to clogged pipes or decreased water pressure. With a simple installation process, it enhances your workmanship by ensuring that the plumbing systems you install remain functional and efficient for longer. For new plumbers, it's a great opportunity to offer customers a solution that adds value and positions you as an expert in the field.

## Why It Matters for Homeowners

Clogged faucets, damaged appliances, and low water pressure are common problems faced by homeowners. With the **"Ashirvad Y-Strainer"**, you can ensure that your water supply is free of dirt and debris, reducing maintenance needs and preventing costly repairs. Whether it's for the kitchen, bathroom, or the entire household, this product provides peace of mind and an effortless way to maintain clean, healthy water.

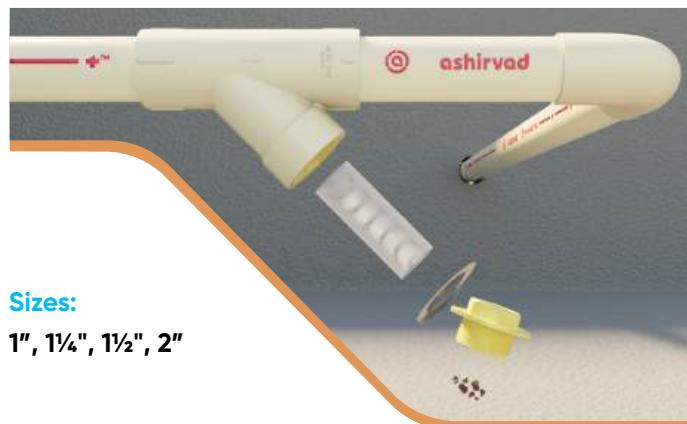

## Where to Use It:

The Y-Strainer can be installed at multiple critical points in your water supply system:

- Borewell Inlet to Sump
- Municipal Water Supply Inlet Line
- Pipeline from Sump to Overhead Tank
- Delivery Lines from Overhead Tanks

## Installation Made Simple:

Ashirvad's Y-Strainers are designed for easy installation. Mounted with the angled piece facing downward, they can be used in both vertical and horizontal pipelines, ensuring comprehensive filtration throughout the system.

## Sizes:

1", 1 1/4", 1 1/2", 2"

## Ashirvad Y-Strainer – Your Ultimate Solution for Water Filtration

Whether you're a plumber looking to offer better solutions to your customers or a homeowner seeking to reduce maintenance costs, Ashirvad Y-Strainer is the answer. Keep your water flow clean and uninterrupted with this innovative, easy-to-maintain, and cost-effective product.

**Ashirvad – Making your life easier, one Y-Strainer at a time.**
